Dechuang Kunling (wuhan) Technology Co., Ltd.

HUA\O

COMPANY INTRODUCTION

DeChuang Kunling Technology Group was established in 2010 in Wuhan, Hubei Province. It has five branches around the world, namely:

- Dechuang Kunling (wuhan) Technology Co., Ltd.
- Dechuang Kunling (Guangzhou) Technology Co., Ltd.
- Dechuang Kunling (Ha Noi) Technology Co., Ltd.
- Dechuang Kunling (Canda) Technology Co., Ltd.
- Dechuang Kunling (London) Technology Co., Ltd.

Products include: clean room panels, clean room doors and windows, clean room aluminum, clean room equipment, negative oxygen ion purification room floors and other one-stop clean room system materials.

The products are widely used in hospitals, pharmaceutical factories, electronics factories, laboratories, new energy, aerospace, semiconductors, food factories, beverage factories, cosmetics and other purification fields

The group operation mode with nationwide layout has been fully realized, laying a solid foundation for local production, local supply and going global.

The group company is strong, and its five branches across the country all have double-layer 13-meter hot-pressed handmade board automatic production lines and multiple imported production equipment. It has more than a dozen national "utility model invention patents" and has passed the fire detection report of the National Fireproof Building Materials Quality Supervision and Inspection Center. The company has passed the ISO9001:2015 quality management system certification and has won the titles of "National High-tech Enterprise", "Specialized and New Enterprise", "Gazelle Enterprise", "Technology-based Small and Medium-sized Enterprises", "Innovative Small and Medium-sized Enterprises", "China's Famous Brand", "Guangdong Province Contract-abiding and Credit-worthy Enterprise", "China's Famous and High-quality Products", "Engineering Construction Recommended Products", "China's Green Environmental Protection Products", "Quality Inspection, National Standard Qualified Products", "Quality + Service + Integrity AAA Enterprise" and "Excellent Supplier" awarded by multiple industry associations and other industry honors. Dechuang Kunling has more than 900 skilled production employees and a strict quality inspection team. We will continue to explore and improve products and services to achieve a one-stop supplier of clean room systems in China.

Dechuang Kunling Group is an honest enterprise with great righteousness, love and national responsibility. In the 2020 COVID-19 epidemic, it launched a comprehensive attack and bravely rushed to Wuhan Huoshenshan and Leishenshan negative pressure wards, operating room ICU wards, Cabin Hospitals and "Xiaolangshan-style" hospitals across the country. Dechuang Kunling people and Dechuang Kunling products have been praised by various government departments and industry associations! And it was officially listed as the [International Emergency Center China Guangdong Provincial Corps Emergency Rescue Building Materials Production Base]!

In the face of honor, Dechuang Kunling people continue to strive forward, actively improve the industrial chain, and provide customers with more valuable clean room system

One-stop solutions. Huaao practices the corporate culture of "integrity, diligence, cooperation, and innovation", follows the principle of "quality first, credit first, service first", and upholds the business purpose of "providing customers with satisfactory products and high-quality services". It is committed to the development of products and services

Continuous development and innovation, and closely connected with many R&D centers, the products have always been at the forefront of the industry and are the industry leader

Dechuang Kunling Group is willing to work with you to become a leading enterprise in the field of equipment and materials for the world's clean industry!

FOUR SENSES SPIRIT

FOUR-WAY SPIRIT

Upwards

Forwards

Be kind

Be positive

Corporate objectives

Dedicated to become a
one-stop cleanroom system supplier leader

Development concept

Adhere to the new technology, new materials, new technology to continuously improve product quality;
To achieve efficient technical personnel, high-tech production equipment to improve production quality;
From the production process, internal structure to innovation of science and technology, establish scientific system management mode to realize the group development.

Spirit of enterprise

[good faith, diligence, cooperation and innovation]

Good faith: Abiding by the commitment, and doing everything with great care.

Diligence: Working hard, being down-to-earth, not avoiding hardships, and working with perseverance.

Cooperation: Advocating communication internally, stressing mutual benefit externally, and creating a harmonious and well-coordinated atmosphere.

Innovation: Constant learning, constant transcending, adopting the merits of every individual and meeting the new challenge.

Decheng kunling

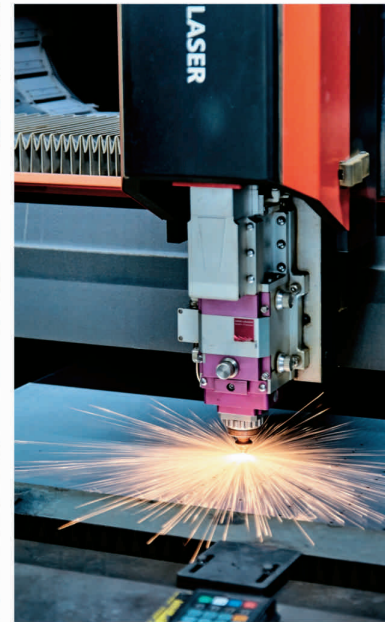

Advanced equipment technology

De Chuang Kunling Group owns the Huijun glass magnesium purification board production line with national patent technology. It adopts the special patented technology of staggered splicing, so that the upper and lower 5mm panels of the glass magnesium board core material and the 11 ribs are staggered, and the 13 connection points are not in the same straight line. The core material and steel plate are fully automated and formed in one step, which makes the bearing capacity, flatness, strength and safety higher. In 2022, the country's first double-layer hot-pressed handmade board automated production line was introduced, so that each handmade clean board produced is of better quality and higher efficiency. De Chuang Kunling Group's six major production bases across the country produce and ship nearby, and deliver on time and quality to major purification fields across the country, winning high praise from customers across the country.

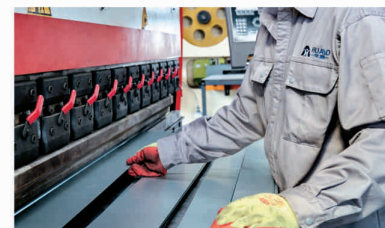

Decheng kunling

Advanced equipment technology

Dechuang Kunling Company has introduced advanced Taiwanese and European equipment, as well as high-tech talents. While ensuring product quality, the efficiency of production has also been significantly improved. Door and window products have achieved full-process technology such as independent research and development, mold opening, and production. In terms of electrification, multiple automatic door products have been iteratively updated, making them more perfect, safe and reliable. On the standardized production line, Huao clean door and window products will be continuously delivered to major purification fields, winning high praise from customers.
